From  
Mohammed Alkebsi,  
[dev.mkebsi@gmail.com](mailto:dev.mkebsi@gmail.com),  
Heziaz, Sana'a, Yemen

Dear Manager,

While I was looking at some of the references online, I saw your website and really wanted to make that change. I am reaching out to express my interest in the Website Development position at Al-Sheibani Group.

I am an initiative and a professional Full-Stack Websites Developer and an expert Digital Marketing Specialist (not just having a small SEO Knowledge) who prides himself on the ability to write clean and reusable code, build websites, monitor their performance online, create dynamic websites, manage and design databases, reach out potential customers, help in planning for future marketing strategies, and make significant coding or Marketing researches. As I completed my studies at Harvard University CS50 (specializing in computer science), I enrolled for Google, ABI Europe, and The Open University's digital marketing courses and become an international certified individual. Moreover, I continued my studies with 4 ECTS European credits from University of Helsinki and Aalto University in the majors of Artificial Intelligence (AI) and Entrepreneurship. I didn't stop here that I had some additional IT and Web courses from the best institute in Germany, Hasso Plattner Institute. English was a big deal in the past, but I have learned it and about to have my TOFEL tests soon - actually this week.

As I look forward to my next chapter, I hope to apply my experience and perspective to stand nex to Al-Sheibani Group and work with them to hit and exceed goals. I admire your commitment and really feel passionate about building your future website at [sheibanigroup.com](https://sheibanigroup.com).

Attached is my resume, some certificates, and the latest projects I have worked on, just the latest, for further review. I would relish the opportunity to grow my career at Al-Sheibani Group and hope to connect soon to discuss my qualifications.

Thanks in advance for your time and consideration,

Best Regards,  
Mohammed Alkebsi

## ABOUT ME

Full-Stack websites developer, digital marketing specialist, writer and author at Envato Market. Currently working online at Freelancer, UpWork and Envato. After many years of getting information from the entire world, I finally decided to implement it in a work I do for my community in Yemen, so from all of the other international platforms, I preferred my hometown and willing to achieve my best in it.

**Those are only the certifications I have in my laptop. There are some other printed ones for Executive Secretary and Administrative Assistance certificates from Entrepreneurship Organization and American French Institute. Others are also online like SEMRush certificates which you can check them out online in my website: [mrkebsi.github.io/cv.html](https://mrkebsi.github.io/cv.html)**

# Projects

**Mohammed Alkebsi - MKebsi**

A Professional Full-Stack Websites Developer &  
Digital Marketing Specialist

M.Kebsi

Founded in 1876, **Henkel** looks back on more than 140 years of success.

**Henkel** operates worldwide with leading innovations, brands and technologies in three business areas: Adhesive Technologies, Beauty Care and Laundry & Home Care.

The company holds leading positions with its three business areas in both national and consumer markets. Thanks to strong brands, innovations and technologies such as **Loctite**, **Persil** and **Schweitel**.

Strong responsibility towards a sustainable future is one of our core values. We are working together to make our business a sustainable transformation for our future.

Our Purpose is built from our roots and carries a long-standing legacy of innovation, responsibility, and sustainability into the future. Our shared values and Leadership Commitments guide our decisions and actions every day. At **Henkel**, we shape our future guided by a long-term strategy. Frameworks based on our purpose, our vision, our mission and values. This framework will help us to win the 20s for **Henkel** with a clear focus on purposeful growth. The means creating superior customer and consumer value to outgrow our markets, reinforcing our leadership in sustainability and enabling our employees to grow, professionally and personally through their work at **Henkel**.

I have put some of my previous work so that you can get a fast, not interactive look at my work. Interactivity of those sites are amazing and words can't describe them. Wish you had a chance to see them all since some are still in my laptop, but I will be able to bring them in the interview. You can see my personal website, image number 1, at <https://mrkebsi.github.io> - and sizillion, image number 2, at <https://mrkebsi.github.io/sizillion> since it was the final project for Harvard CS50. The others are great and professional, too, but you know how is the Internet in Yemen these times, especially in Heziaz. You may see a further information about those at my site, portfolio section, <https://mkebsi.github.io/portfolio.html>. I think that there is no need to describe things more than this.
